Humboldt Builder's Exchange and Boys & Girls Club of the Redwoods Teen Center Renovation

Boys & Girls Club of the Redwoods is pleased to be working with the Humboldt Builder's Exchange to continue our building renovation, with the help of the Rotary Club of Eureka. Tony Lucchesi and his crew members at Pacific Builders have graciously volunteered their time, installing over fifteen new windows in the Eureka Teen Center's computer room. Stewart Telecommunications has also volunteered, installing new phone lines throughout the administrative offices. We now have a sign for the continuation of our renovation, designed & produced by Chuck Ellsworth in association with ALLPOINTS, to help encourage the renovation process. Upcoming, the Boys & Girls Club will need more windows updated, and new framing and insulation. Community members can still donate to the renovation process by contacting our Administrative Office.

The Boys & Girls Club of the Redwoods is a youth development program for youth ages 6 to 18. All of our sites offer a safe place, for children to learn, play, and develop citizenship and leadership skills, create healthy lifestyle habits, and increase their academic success. Club programs and services promote and enhance the development of our members by instilling a sense of competence, usefulness, belonging, and a power of influence.

The Eureka Teen Center is located within the Carson Memorial Community Center, built in 1954, and is considered a historical building in Eureka. The entire building renovations consists of new windows, updated restrooms, more office spaces, a new lounge room, better weight room, and insulation and drywall. All of these updates will allow the Boys & Girls Club of the Redwoods to serve more youth, more effectively for years to come. We are incredibly grateful to the Humboldt Builder's Exchange, our local Rotaries, and so many others for making this renovation possible.

For questions, please contact Monica Rose, Executive Director at our Administrative Office at
